THANK YOU!

I want to thank you for coming to the weekend Music Co-explorations, for embracing music with your children in new ways, and for being open to the magic we can create together. I want to thank you for being parents. The work you do at all hours of the night, throughout the day, at times when you want to, and at times when you really would just like to close your eyes, to support and provide for your children is incredible. Has anyone told you that recently? Well, I think you're AMAZING! Thank you for bringing them into the world with such love, they are really fortunate.

I have to ask you...

I'm devastated by the amount of young children like yours who are separated from their families as they seek asylum. I can't stand idly by knowing what devastation to their development this is. I'm calling on young families and Early Childhood Educators to rally against this treatment of children. I've started a campaign to fund the International Rescue Committee as they are providing emergency assistance to those most at risk. Will you donate and share? Together, we can help.
